Testing Resources

Interactive, self-paced online test prep. Includes self-assessment for the various modules as well as general ACT test strategies and information.

http://www.testprepreview.com/act_practice.htm

Testing Resources

Free online test prep course for ACT and vocabulary tests. Self-assessment allows the student to know what needs to be addressed. Adapts to student performance and builds the needed practice modules.

<http://number2.com>

Testing Resources

A variety of LEAP and iLEAP practice sites.
Excellent resource.

<http://masters535.com/testingwebsites.htm>

Testing Resources

Assessment tool aligned to the LA state standards. Can be used in the classroom or at home. Immediate feedback allows teacher, student, or parent to see areas of strength and weakness. Teacher sets up account.

<http://www.louisianaeagle.org>

Testing Resources

Includes assessment, instruction, and reporting in English language arts, math, science, and social studies. Items may be reviewed in test mode or game mode. Available for school or individual purchase.

<http://www28.studyisland.com/>

Learning Resources

Practice and resources in reading and language arts for grades K-12. Includes interactive tools for a variety of literacy skills.

<http://www.readwritethink.org/>

Learning Resources

Excellent activities that move young children toward a love for reading and writing. Stories that can be read aloud and watched, as well as related activities.

<http://www.starfall.com>

Learning Resources

Illustrated lessons and learning resources. Excellent step-by-step instruction for a variety of reading and math topics. Other subject areas are coming soon.

Learning Resources

ThinkTank

Helping students develop a list of topics and subtopics for reports and projects

Help for students trying to come up with research topics. Assists in refining topics to improve Internet searches. Topics can be exported to NoteStar.

<http://thinktank.4teachers.org/>

Learning Resources

An Internet utility to help students with research projects. During the process students are guided in collecting and organizing their notes, as well as with their bibliography pages. (Teacher must set up the student account.)

<http://thinktank.4teachers.org/>

Learning Resources

An interactive web tool to help students set up their bibliographic information for reports/research. Also good at the college level.

<http://citationmachine.net/>

Learning Resources

chem1 virtual textbook

a reference text for General Chemistry

Chemistry resource and help site created by chemistry teacher.

<http://www.chem1.com/acad/webtext/virtualtextbook.html>

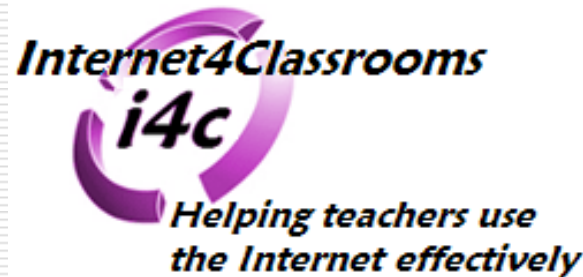

Learning Resources

LPB's vast array of topics appropriate for children to adults. Videos and more.

<http://www.lpb.org/education/students.cfm>

Learning Resources

Information and links for parents, as well as links for kids of all ages. Resources to help your child with almost any subject area.

<http://www.internet4classrooms.com/parents.htm>

Learning Resources

World Book at its best. Versions for every age group that make it very user-friendly. In addition to the full encyclopedia, there are learning resources, links to our state standards, activities, and more.

***This resource is paid for by our state. You will need to get the passwords from your child's school.

<http://www.worldbookonline.com>

Learning Resources

A must for research at all levels. Students at any age can locate the resources they need for projects, reports, and more. Citation information is provided for all articles and other resources.

***This resource is paid for by our state. You will need to get the password from your child's school.
